

months to obtain a certificate of compliance from the Development Services Department. Prior to issuance of the Certificate of Compliance, you must provide the items listed below in accordance with the applicable city codes.

1. Accessory storage.
2. Carport.
3. Driveway.
4. Skirting.
5. Tie-downs.
6. Evidence that the terms of the required termite treatment contract have been completed.
7. A request to the Building Department to perform the final inspection.

Inspections

City regulations require that installation of the unit be inspected as soon as it is located on the lot and again within three months of permit issuance. Inspections can be requested in person at the Development Services Department or by calling 763-0172. Requests will be performed within 24 hours. If you need to make an appointment for an inspection for some reason, please call 763-0124 between the hours of 8:00 AM and 5:00 PM to make the necessary arrangements.

Final Approval

In order to obtain final approval on your project and a Certificate of Compliance, you must call the Development Services Department and request a final inspection. Please keep in mind that you have three months to make the improvements described in this pamphlet and obtain a Certificate of Compliance. Further, a Certificate of Compliance cannot be issued until you have requested and received an approved final inspection, returned your floodplain elevation certification if a floodplain development permit was required, and submitted proof that the soil was treated for termites. Once all is in order, a Certificate of Compliance will be mailed to the property owner or the permittee. The Certificate of Compliance can also be picked up from the Development Services Department.

Permits for Manufactured and Factory Built Homes

General

Permits must be obtained prior to the installation of manufactured and factory built buildings used for single family dwelling purposes. There is also a one-time Water Resource Fee which applies to all new construction within the City of Bullhead City. Please refer to the fee schedule for applicable fees.

Floodplain status of the parcels in question is also determined at this time. If the land is designated on the Federal Emergency Management Agency's Flood Insurance Rate Map as being in the floodplain, a Floodplain Development Permit must be obtained at the same time as issuance of a permit for the home. This permit is \$120.00.

All sites on which a manufactured or factory built home are located must be treated for termites. Submittal of a service contract prior to permit issuance and subsequent proof of treatment is required prior to issuance of a Certificate of Compliance.

Applicable Definitions

"Factory built building" means a residential or non-residential building including a dwelling unit or habitable room thereof which is either wholly or in substantial part manufactured at an off-site location to be assembled on-site, except that it does not include a manufactured home, mobile home, or recreational vehicle. Said buildings are inspected by the Arizona Department of Building and Fire Safety.

"Manufactured home" means a structure built in accordance with the National Manufactured Home Construction and Safety Standards Act of 1974 and Title VI of the Housing and Development Services Act of 1974, and all subsequent amendments thereto.

Construction and Safety Standards

All manufactured, mobile, and modular homes installed and relocated within the City shall comply with the con-

ditions set forth below.

1. The homes cannot be manufactured more than two years prior to the year in which the permit is requested.
2. The homes must comply with the construction and safety standards adopted by the U.S. Department of Housing and Urban Development and Chapter 15.44 of the city code.

Accessory and Attached Structures

1. For the purpose of these provisions, the word "accessory" will mean any structure not attached to the unit at the time of delivery.
2. The installation, assembly, connection or construction of any accessory item or attached structure must be pursuant to applicable requirements of the Uniform Building Codes, etc. This also means a separate permit is necessary.

Drainage

Drainage of at least one-half inch per foot. must be provided for the first ten feet adjacent to all sides of the installation.

Ground Anchoring

1. Single wide manufactured homes must have 4 anchors on each side of the unit. The anchors closest to each end must be connected to a continuous strap over the entire unit. The center 2 anchors may be attached to the frame.
2. Installation and materials of the ground anchoring systems must be as specified by a registered architect, engineer, or the design bureau of the Division of Mobile and Manufactured Housing Standards.

Skirting

1. Skirting is required on all installations.
2. Skirting must have an 18" by 24" access crawl hole. Underfloor areas must be accessible. Ventilation for under floor areas must be as provided in accordance with the Uniform Building Code.
3. Skirting materials must be wood, metal, concrete, plastic or masonry.

Utility Hookups

1. Utility hookups must be pursuant to:
 - a. The Uniform Plumbing Code, the latest edition.
 - b. The National Electric Code, the latest edition.

Plan Submittal Requirements & Permits

All permit applications are reviewed by the Development Services Department. Review time normally requires 7-10 working days. When applying for a permit for manufactured or factory built homes, you must submit:

1. A completed application form.
2. A copy of a Mohave County septic tank permit, a copy of City sewer permit; or other proof of sewer availability.
3. Two 8 1/2" x 11" site plans which depict the items listed below.
 - a. Property boundary markers.
 - b. Accessory storage (minimum of 80 sq.ft.)
 - c. Carport on one side of the unit (minimum of 10 ft. x 20 ft.).
 - d. Driveway measuring not less than 12 feet wide that will be constructed of asphalt, concrete, or gravel.
4. Contract for termite treatment services.

Permit Issuance

At the time of permit issuance a fee is required. When your permit is issued, a fee receipt and inspection card will be returned to you. The card is to be kept posted on the property for the duration of the permit.

Upon issuance of a permit and placement of the home on the lot, you must request an inspection from the Development Services Department to confirm compliance with the requirements set forth below.

1. Easement, lot coverage, and setbacks.
2. Visible street address numbers, a minimum of 3 1/2 inches high.

Once the permit is issued, then you will have three
